MISSION ASSURANCE SUPPORT SERVICES (MASS) DEBRIEF

JPL Small Business Round Table
August 25, 2015
von Karman Auditorium

MISSION ASSURANCE SUPPORT SERVICES (MASS)

BACKGROUND

The Mission Assurance Division within JPL manages the **Reliability Engineering and Mission Environmental Assurance Office**, the **Quality Assurance Office**, and the **Electronic Parts Engineering Office**.

These three Offices are responsible for providing specialized technical engineering services for all JPL in-house projects and/or missions. These services include engineering support in the following areas:

- ☐ Reliability
- ☐ Environmental
- ☐ Electromagnetic compatibility
- ☐ Probabilistic risk assessment
- ☐ Quality assurance and inspection; and
- ☐ Electronic parts engineering and failure analysis

Due to rapid fluctuations in staffing, as dictated by project/mission needs, the selected subcontractor will be required to provide a local facility for support personnel.

- On occasion, support may be needed in additional domestic geographic areas

Anticipated Details/Schedule

Duration	Five (5) years
Competition	Small Business Set-Aside
Subcontract Type	Labor-Hour or Time & Material
NAICS Code(s)	541712 -- Research and Development in the Physical, Engineering, and Life Sciences (except Biotechnology) Not finalized at this time
Mandatory Qualifications	Not finalized at this time

TENTATIVE SCHEDULE*

Request for Proposal Release:

October 19, 2015

Bidders Conference

October 27, 2015

Subcontract Execution:

March 4, 2016

Go Live:

April 1, 2016

Jet Propulsion Laboratory
California Institute of Technology

Questions/Concerns/Feedback

Please direct any and all questions and commentary to the MASS Subcontracts Manager, Christina Avetyan:
